

Implementing Web Application

Name	S M Vishaal (team lead)
Roll no	210419104162
Team ID	PNT2022TMID24713
Project Name	Inventory Management System for Retailers

TASK

➤ Create UI to interact with application

- Registration Page
- Login Page
- Display items in the Dashboard
- Adding items
- Test it

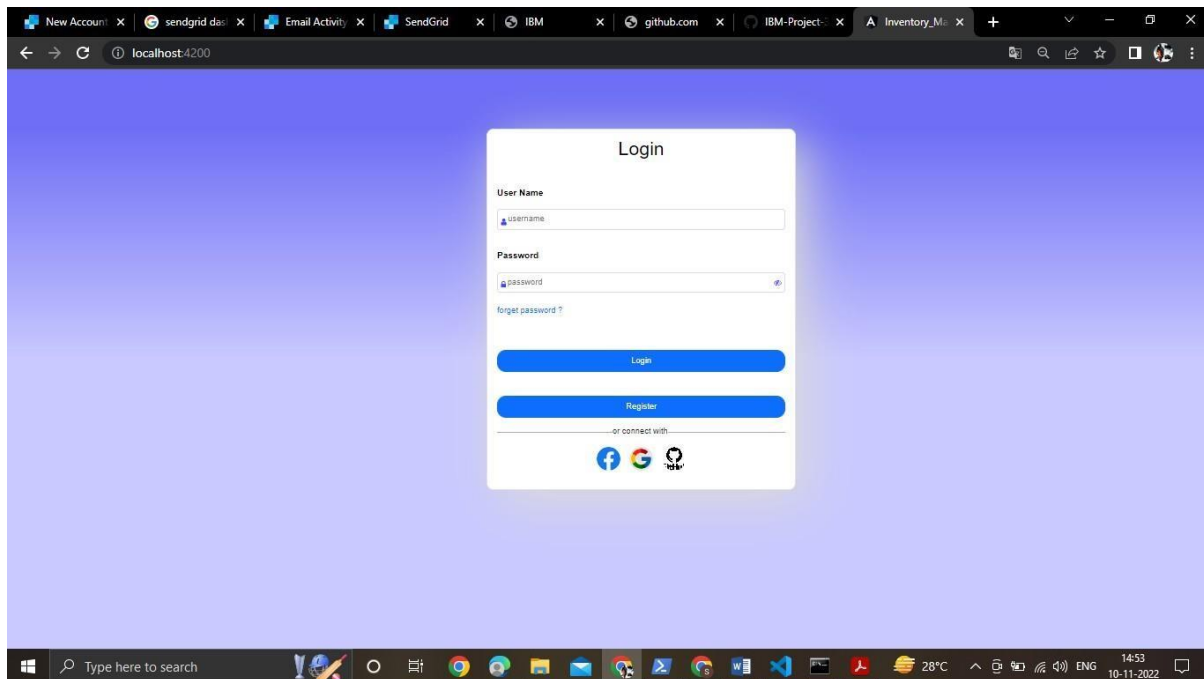

➤ Create IBM DB2 and connect with Node.js

Create UI to interact with application

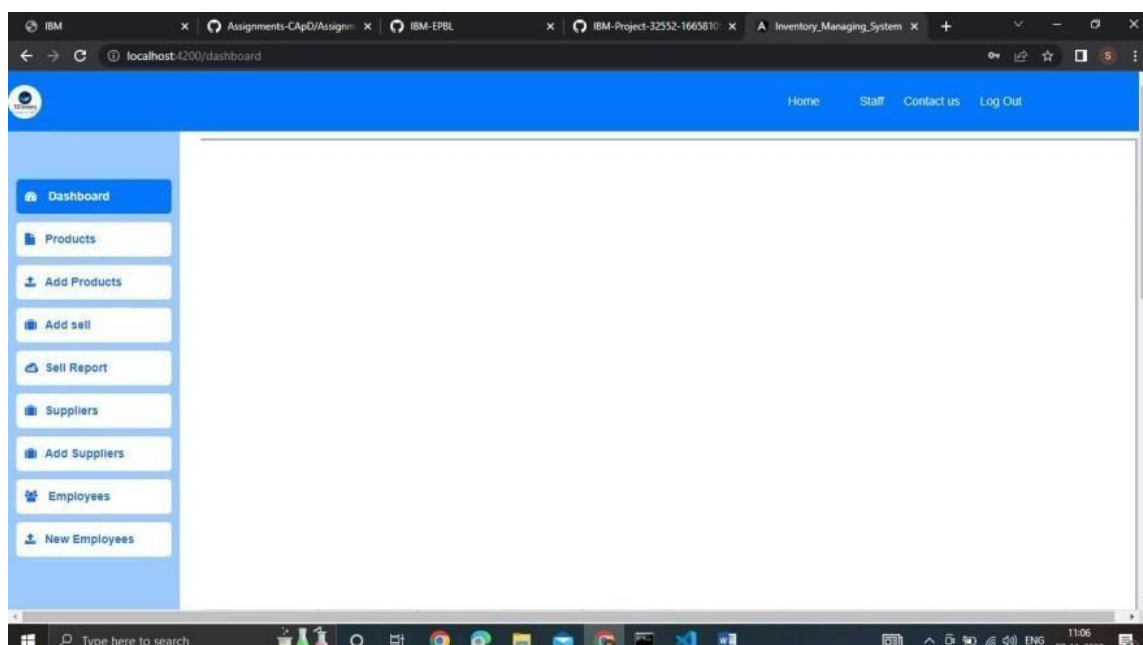

Registration Page

The screenshot displays a web browser window with multiple tabs open. The active tab is 'Inventory_M'. The address bar shows 'localhost:4200/signup'. The main content area has a purple gradient background. In the center, there is a white card titled 'Create New Account'. The card contains three input fields: 'User Name' (with a user icon), 'Email' (with an email icon), and 'Password' (with a password icon and a toggle for visibility). Below the fields are two blue buttons: 'Register' and 'Login'. A link 'Already Have an Account' is positioned between the two buttons. The Windows taskbar is visible at the bottom, showing the search bar and various application icons.
